

FXP1700 SERIES SAFETY GATE KIT FOR FIBERGLASS PLATFORM LADDER

The FXP1700 Series Safety Gate is an accessory designed for use with the FXP1700 Platform Ladder, providing enhanced user safety by creating a fully enclosed working zone at the top of the platform. It ensures 360° contact and protection, helping keep users secure while working at height.

FEATURES

- Provides a 360° enclosure for maximum user safety on the platform
- Enhances safety for multi-directional tasks at height
- Swing gate design opens easily and locks securely during use
- Keeps the user within the ladder footprint for improved stability
- Allows user to work facing any direction
- Folds compactly for easy access, transport, and storage
- Easily retrofited to existing FXP1700 ladders
- Cost-effective safety upgrade for jobsite compliance
- Ideal for professionals requiring extended time on top platform
